If your doctor recommends blood work, you will save out-of-pocket expense by visiting an Anthem Reference lab: i.e. Labcorp (www.labcorp.com) or Quest (www.questdiagnostics.com). If you visit one of the above referenced labs, you will pay zero dollars for blood work, if it is preventative testing. If you visit any other lab in the network, you will pay your deductible and co-insurance. Visit the above websites for locations near you.
